

New England Wind Fund Terms and Conditions, effective 08/14/2016

<p>What is the <i>New England Wind Fund</i>?</p>	<p>The <i>New England Wind Fund</i> program, promoted by the non-profit Energy Consumers Alliance of New England (ECANE), dba Mass Energy Consumers Alliance in Massachusetts and People's Power & Light in Rhode Island, supports the development of new wind energy sources in New England. ECANE will purchase wind energy certificates using monies contributed to <i>New England Wind Fund</i>. Each of these certificates will signify one megawatt-hour of energy generated by a wind facility connected to the grid. At least 80% of contributions to NEWF will be used to purchase Renewable Energy Certificates (RECs) from wind projects located in New England. No more than 20% of contributions will be spent on program support and administration. Contributions can be treated as tax-deductible for federal tax purposes. <i>New England Wind Fund</i> will also be reviewed annually by an independent auditor.</p>
<p>How much wind energy will my contribution help create?</p>	<p>You may choose the size of your contribution. For every \$40 contributed, at least one megawatt-hour (MWh) of electricity will be generated by a wind facility connected to the New England grid, and ECANE will retire one Renewable Energy Certificate on your behalf. For comparison, the typical home in New England uses about 1 MWh of electricity in 6 weeks.. ECANE will make every effort to get the most wind energy for every dollar contributed to the <i>New England Wind Fund</i>.</p>
<p>When will the wind energy be put on to the New England grid?</p>	<p>ECANE will retire wind energy certificates on your behalf from energy that has been produced within ten (10) years from the calendar year in which you make your contribution to <i>New England Wind Fund</i>. ECANE will screen potential projects and leverage other funding sources in order to maximize the impact of your contribution to <i>New England Wind Fund</i>. ECANE will post an annual report and additional periodic updates on its web site and answer any questions that you direct to the addresses below.</p>
<p>Will I personally benefit? Will I be buying and owning wind energy certificates?</p>	<p>ECANE will use <i>New England Wind Fund</i> to pay for wind energy certificates and retire these certificates to ensure that they are not used for other purposes. You will not be taking ownership of either wind energy certificates or any associated electricity.</p>
